

ASP.NET MVC Developer

LOCATION: New York
TYPE OF EMPLOYMENT: Full-Time Permanent

JOB DESCRIPTION

- Design and develop custom software solutions utilizing the latest .NET technologies.
- Work alongside consultants and client teams to develop and design custom software solutions using Windows and web applications.
- Consistently leverage your strong core technical knowledge of ASP.NET 3.5, C#, WCF, and SharePoint.
- Work face-to-face with clients to identify requirements, create architecture, and implement innovative solutions.
- Deliver critical projects and components for one or more of our Fortune 500 clients.

REQUIREMENTS

- Background in .NET 4.0, WCF, Workflow Foundation, and other Microsoft technologies.
- Experience with ASP.NET MVC v2-v3 and ORMs (NHibernate/Entity Framework 4)
- A strong C# ASP.NET background, experience working in a consulting environment and a passion for technology.
- Established experienced with C# development using technologies including: C#, .NET 1.1 – 4.0, Web Services, and WCF.
- Abroad knowledge of ASP.NET architecture and development as well as a strong knowledge of web services such as SOAP and REST.
- HTML, JavaScript, AJAX, and JQuery experience is a plus.
- Strong design skills and ability to work independently and in a team setting.
- A general knowledge of Microsoft technologies or experience in the financial services industry is also an asset.

COMPENSATION

Commensurate with experience
