

Back-End/Server-Side Developer

LOCATION: New York
TYPE OF EMPLOYMENT: Full-Time Permanent

JOB DESCRIPTION:

- Work alongside consultants and client teams to develop and design custom software solutions using Windows and web applications.
- Consistently leverage your strong core technical knowledge of .NET 3.5/4.0, .NET Remoting, WCF, and multi-threading patterns.
- Work face-to-face with clients to identify requirements, create architecture, and implement innovating.
- Successfully deliver 2-4 mission critical projects for one or more of our leading internationally recognized clients.

REQUIREMENTS:

- Experience with C# development using technologies including C#, .NET 2.0 - 4.0, .NET Remoting, WCF and XML.
- Broad knowledge of design patterns and experience with multi-threaded, back-end development.
- Solid background in SQL - queries, scripting, stored procedures etc.
- Areas of expertise: middle-tier and back-end development
- Strong design skills and ability to work independently and in a team setting.
- A general knowledge of Microsoft technologies or experience in the financial services industry is also an asset.
- Some knowledge of WPF would be a great advantage, but it is not a requirement

COMPENSATION:

Commensurate with experience

HOW TO APPLY:

1. Please email resume in Word format to amusco@amsolutionsworldwide.com.
2. Please put YOUR NAME, TITLE and LOCATION of this job in the email subject.

Thank you to all applicants! Only those who qualify for an interview will be contacted and more information about the client and job will be given out at that time.
