

# SENIOR DEVELOPER FOR COBALT

**LOCATION:** Salt Lake City, UT

**TYPE OF EMPLOYMENT:** Full-Time Permanent

## Job Summary & Responsibilities:

The COBALT technology team provides benchmark data to various systems within IMD which includes majorly front office, along with middle and back office systems. The candidate should have good hands-on experience on the technologies he has worked on (list mentioned below). The candidate would be involved in delivering quality products by working very closely with various stake holders within IMD/GSAM and the team globally.

- Developing tools for strategic COBALT and getting involved in design and implementations details.
- Providing support to daily production batches and working on various business and IT driven small/large enhancements
- Working collaboratively and effectively within the team globally (majority of team is going to be in Bangalore)
- Act as a mentor to junior folks in terms of best practices in technology
- Working and liaising with business users globally and helping drive projects from end to end
- Should be able to interpret and understand the business requirements from different stake holders like traders, strategists, PMs, Operations etc and then turning them into quality technical solutions.

## QUALIFICATIONS:

### Must Have

- Strong hands-on experience with Java (core and advanced), database and web technologies (Tomcat, struts, JSP, XML etc.) for at least 6-7 years or more.
- Database preferably Sybase but other relational DBMS SQL/Oracle/UDB/DB2 experience acceptable
- Ability to articulate ideas and win support of peers and business users via use of verbal and written communication.
- Ability to take initiatives and work independently with loose supervision of project manager.

### Huge Plus:

- Experience in designing and delivering enterprise applications (small or large systems)
- IT Experience preferred in Financial/Brokerage firms.
- Financial systems experience highly desirable as well as general financial knowledge of products and processes.

## COMPENSATION:

\$90K-\$125K total comp

## HOW TO APPLY:

1. Please email resume in Word format to [amusco@amsolutionsworldwide.com](mailto:amusco@amsolutionsworldwide.com).
