

# **SR. BUSINESS INTELLIGENCE DEVELOPER – SQL SERVER & .NET**

**LOCATION:** Caribbean

**TYPE OF EMPLOYMENT:** Full-Time Permanent

## **RESPONSIBILITIES:**

- Hands-on ETL development using TSQL and Integration Services (SSIS) including associated performance tuning.
- Data Warehouse day-to-day administration including reviewing ETL load jobs for consistency and quality, and performance monitoring.
- Gather and analyze business requirements, functional requirements, and data specifications for ETL, dashboards and other business reporting needs.
- Participate in data modeling, relational and star-schema design and implementation.
- Design, develop and maintain reports and dashboards based on business requirements using Reporting Services and ASP.NET.
- Participate in developing and maintaining best practices as they relate to ETL, report design, and data quality/governance strategies.
- Research data warehousing/business intelligence trends and technological innovations in order to make appropriate development recommendations.
- Provide support to business users and application developers.

## **MUST HAVE SKILLS AND EXPERIENCE:**

- 6+ years of Data Warehouse/Business Intelligence work experience, including 3+ years using Microsoft BI technologies (SQL Server, SSRS, SSAS, SSIS, etc...)
- 2+ years of software development experience using Microsoft .NET Framework (C# or VB.NET).
- 10+ years of combined experience as Software Developer, Database Developer or Database Administrator.
- Strong and current Database Programming and Database reporting skills with Microsoft SQL Server 2005 or 2008, including strong TSQL skills.
- Experience with SQL Server Reporting Services and SQL Server Analysis Services.
- Experience designing and implementing OLAP Cubes
- Strong database design skills, including star-schema.
- Good Data Modeling skills.
- Strong ability to analyze user requirements and build front-end Business Intelligence applications according to business specifications.
- Exceptional analytical, conceptual, and problem-solving abilities with attention to detail.
- Strong written and oral communication skills.
- Ability to multi-task and work on for several different projects.

## **HUGE PLUS:**

- Extensive experience integrating BI solutions with Excel.

## **COMPENSATION:**

Commensurate with experience

**HOW TO APPLY:**

1. Please email resume in Word format to [amusco@amsolutionsworldwide.com](mailto:amusco@amsolutionsworldwide.com).
2. Please put YOUR NAME, TITLE and LOCATION of this job in the email subject.

Thank you to all applicants! Only those who qualify for an interview will be contacted and more information about the client and job will be given out at that time.
