

WPF DEVELOPER

LOCATION: New York
TYPE OF EMPLOYMENT: Full-Time Permanent

JOB DESCRIPTION:

- Design and develop capital markets trading systems and platforms as part of an effort to build new strategic systems using the latest .NET technologies.
- Work with the Microsoft technology stack in a consulting environment.
- Deliver critical projects and components for one or more of our Fortune 500 clients.
- Work face-to-face with clients to identify requirements, create architecture, and implement innovative solutions.
- Create essential components for our client's current front-office applications

RESPONSIBILITIES:

- Established experience with the Software Development Lifecycle, Composite Application Block, (CAB), and Model-View-ViewModel pattern.
- At least 3 years of involvement with the design and development of .NET projects for at least 3 years.
- At least 6 months experience with WPF and the ability to design, organize, and implement modules; create product testing plans; perform system testing and support; and maintain existing systems.
- Strong design skills and the ability to work independently and in a team setting.
- A general knowledge of Microsoft technologies or experience in financial services industry is also an asset.

COMPENSATION:
Commensurate with experience

HOW TO APPLY:

1. Please email resume in Word format to amusco@amsolutionsworldwide.com.
2. Please put YOUR NAME, TITLE and LOCATION of this job in the email subject.

Thank you to all applicants! Only those who qualify for an interview will be contacted and more information about the client and job will be given out at that time.
